In the Claims:

Please rewrite claim 1 in amended form as follows.

Sub D1
1. (Amended) A method for producing a fruit vinegar, which comprises
subjecting at least one member selected from the group consisting of [a flavorful acid citrus
fruit juice with a low citric acid content and the dilution thereof,] lemon juice, lime juice, yuzu
juice, kabosu juice, sudachi juice and shii kuwasa juice in the presence of alcohol (ethanol), to
acetic acid fermentation by acetic acid bacteria.

Please amend claim 9 as follows.

Lines 2-3 delete "a rapid brewing method" and ~~insert~~ therefor —using an
acetator—.
